

# Bojo Tools

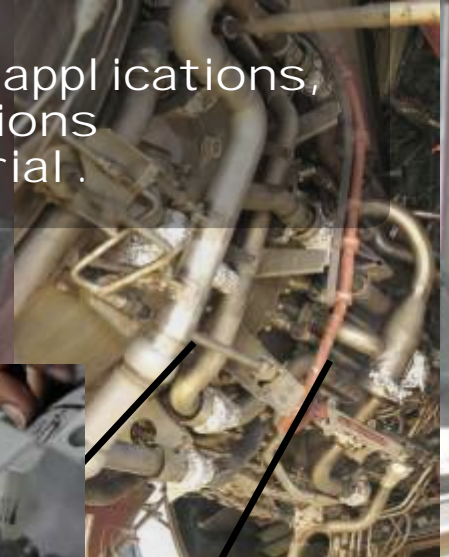

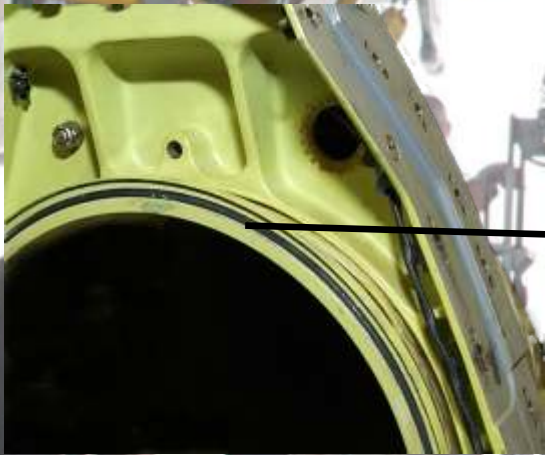

O-Ring Groove Cleaner/Assembly Pry Tools

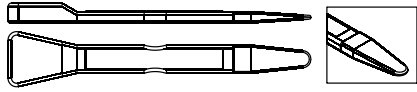

Critically machined mating surfaces are the most vulnerable to tooling damage. The avoidance of metal picks, scrapers and prys is vital if seal integrity and performance is to be maintained.

Within our range of tools particularly suited to these applications, Bojo offers several narrow and sharp pry/scrapper options manufactured in our strongest plastic composite material.

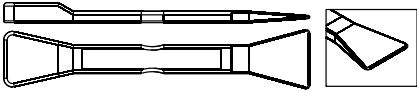

**GENERAL PURPOSE ROUND TIP**

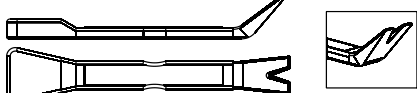

p/n ath-1-( )\*  
for splitting soft plastic parts  
also to smooth caulking.

**GENERAL PURPOSE WIDE EDGE**
